

Day 3:

Question 1:

Tasks:

Task 1: Prompt Design

1. Create a well-structured prompt to generate a product description for the smartwatch.
2. Ensure the prompt includes the following constraints:

Maximum 120 words

Target audience: fitness enthusiasts

Tone: energetic and persuasive

Exactly 4 bullet-point features

Prompt:

<system instruction>

You are a marketing person.

</system instruction>

<context>

Product: Smartwatch

fitness enthusiasts

Tone: energetic and persuasive

Requirements:

-Maximum 120 words

-Includes exactly 4 bullet-point features

</context>

<query>

Write a product description for the smartwatch. Focus on its fitness benefits and include heart-rate monitoring, GPS tracking, long battery life, and water resistance. Keep it engaging, concise, and follow all the requirements.

</query>

<output>

A product description under 120 words with exactly 4 bullet points, written in an energetic and persuasive tone for fitness enthusiasts, ending with a strong call to action.

</output>

Task 2: Model Execution

1. Use the same prompt on the following AI models:

ChatGPT

Claude

2. Generate outputs from both models.
3. Paste both outputs for comparison.

ChatGPT Output:

Take your fitness journey to the next level with our Smartwatch, built to keep up with every workout and challenge. Designed for fitness enthusiasts, it delivers the performance and reliability you need to stay motivated and achieve your goals.

- Heart-rate monitoring to track your performance in real time.
- GPS tracking for accurate routes, pace, and distance.
- Long battery life to power through extended training sessions.
- Water resistance so you can train confidently in any weather.

Push your limits, stay on track, and make every workout count—get yours today!

Claude Output:

Push your limits. Track every heartbeat. Chase every mile. This smartwatch is built for athletes who refuse to settle — your ultimate training partner, strapped right to your wrist.

- Heart-Rate Monitoring – Real-time tracking keeps you in your optimal zone, every workout.
- GPS Tracking – Map every run, ride, or hike with pinpoint accuracy — no phone required.
- Long Battery Life – Up to 7 days of power, so you never miss a beat (or a workout).
- Water Resistance – Swim, sweat, or sprint through the rain — this watch keeps up.

Task 3: Comparison & Analysis

1. Compare the outputs from both models based on:

Constraint adherence

Content quality

Engagement level

2. Provide at least 4–5 comparison points highlighting differences and observations.

Criteria	ChatGPT Output	Claude Output
Constraint adherence	Follows the requirements well by covering all the requested features.	Also follows the requirements and includes all the requested features with one extra detail
Content quality	Clear, informative, and easy to understand. Explains the product benefits simply.	More persuasive and energetic, but slightly more promotional than informative.
Engagement level	Friendly and motivating with a clear call to action.	More exciting and attention-grabbing with short, powerful sentences.
